Subject: RE: Reminder: Ethics Committee discussion regarding "young" non-directed donors

A very heartfelt thank you to Anita and Emily for their work and efforts bringing this together, and to all of you in making time to join this endeavor. It remains a challenging, but excellent discussion, and one that is indeed reflective of the thoughtful nature of our group and the dedication we have to making the best decision with the best information an ever-shifting patient landscape.

I would be proud and happy to participate in a Friday 8 a.m. discussion in the future if others feel that would be a good next step in the conversation, or any other preferred route.

Best wishes and with gratitude,

Jason
