Subject: Professional Practice Model Session Pre-work

Dear Nurse Colleagues!

Thank you so much for your willingness to participate in the revision of our Nursing Professional Practice Model (PPM). We are excited about the process and look forward to meeting with you.

We are asking that everyone participate in both sessions. If you are only able to participate in the first one, we are willing to arrange a method for you to formally provide feedback for the second session. If you *cannot* attend the first session, you will be excluded from participation as the first session includes crucial foundational information.

Session 1: Wednesday, September 11, 0900-1030, Room 7614, 7th floor North Tower Classroom

Pre-work:

1. Review the current PPM. We will provide some additional images to prompt discussion during the session.
2. Read the attached articles- get out your highlighters or red pen, or take notes- whatever helps you absorb this content. ☺
3. Prepare responses to the following questions:
 - a. In 5-8 sentences, how would you explain what a PPM is to a colleague?
 - b. What is good about our current PPM?
 - c. Are any concepts missing from our current PPM?

Agenda:

1. Receive our charge from Lorna Facticeau, CNO
2. Review Magnet definition of PPM and related standards
2. Discuss articles and review responses to pre-work questions
3. Critique current PPM and discuss revisions

Session 2: September 24, 2013, 1130 – 1300: 7 East Classrooms (7201 & 7203)

Agenda:

1. Review revised PPM
2. Develop education and implementation strategies

Thanks so much!

JT Hall and Jenny Dixon
