

Study Title	Date Approved by IRB (mm/dd/yy)	Study Status	Date Study Completed	Principal Investigator Name(s)	Principal Investigator Credentials	Role(s) of organization's Nurse(s) in the Study	Study Scope Check only one			Study Types Check all that apply		
							Internal to a Single Organization	Multiple Organizations within a System	Independent Organizations Collaboratively	Replication	Qualitative	Quantitative
1 Comparison of arm versus ankle non-invasive blood pressure measurement at two different levels of back rest elevation	09/02/11	Closed	05/21/14	Nicole Henley	BSN, RN	PI and Research Study Team Members	X					X
2 Extravasation-Measurement of a nursing sensitive quality outcome for ambulatory oncology nursing practice: Multisite	12/13/11	Open		Adrienne Banavage	MSN, RN, OCN	PI and Research Study Team Members			X			X
3 Art Therapy and Post-thoracotomy pain management	03/28/12	Open		David Schneider	BSN, RN, OCN	PI and Research Study Team Members	X					
4 Comparing ATP results in disposable ECG cables vs. non-disposable ECG cables in the post-operative TCV pediatric patient	04/10/12	Closed	12/01/12	Nancy Addison	BSN, RN	PI and Research Study Team Members	X					
5 Factors associated with pressure ulcer development in the MICU	04/15/12	Closed	10/17/13	Inge Smit Julie Grishaw	MSN, RN MSN, RN, ACNP	PI and Research Study Team Members	X					X

Study Title	Date Approved by IRB (mm/dd/yy)	Study Status	Date Study Completed	Principal Investigator Name(s)	Principal Investigator Credentials	Role(s) of organization's Nurse(s) in the Study	Study Scope Check only one			Study Types Check all that apply		
							Internal to a Single Organization	Multiple Organizations within a System	Independent Organizations Collaboratively	Replication	Qualitative	Quantitative
6 Nurses take the lead: Nurse driven strategies to prevent pneumococcal disease in adults with choronic disease in a cardiology population	08/16/12	Closed	12/01/12	Melly Turner	BSN, RN	PI and Research Study Team Members	X					X
7 Nursing worklife survey: Ambulatory	09/12/12	Closed	11/15/13	Jennifer Hall	MSN, RN, CNL	PI and Research Study Team Members	X					X
8 The effect of nurse-driven early mobility protocol implementation on adult acute care spine surgery patients	10/22/12	Open		Amy Johnston	BSN, RN, CNRN	PI and Research Study Team Members	X					X
9 The Marathon product pilot: Evaluating a cyanoacrylate-based liquid skin protectant for prevention of sacral skin injuries in patients	12/06/12	Closed	08/01/13	David Mercer	MSN, RN, ACNP, WOCN	PI and Research Study Team Members	X					X
10 Does patient proximity to the nurses' station reduce falls?	03/05/13	Closed	11/01/13	Allison Spicer	BSN, RN	PI and Research Study Team Members	X					X
11 The effect of a glucose management protocol on inpatient vascular patients	04/04/13	Open		Suzanne Fuhrmeister	MSN, RN, ACNS	PI and Research Study Team Members	X					X

Study Title	Date Approved by IRB (mm/dd/yy)	Study Status	Date Study Completed	Principal Investigator Name(s)	Principal Investigator Credentials	Role(s) of organization's Nurse(s) in the Study	Study Scope Check only one			Study Types Check all that apply		
							Internal to a Single Organization	Multiple Organizations within a System	Independent Organizations Collaboratively	Replication	Qualitative	Quantitative
12 To determine the reliability of a pediatric drug withdrawal scoring system	06/05/13	Open		Lisa Letzkus	MSN, RN, CPNP-AC, CCRN	PI and Research Study Team Members	X					X
13 A pilot study: wil the use of an adhesive ionic silver post-operative surgical site dressing decrease the incidence rate of surgical site infections in hepatobiliary patients?	07/29/13	Closed	06/23/14	Richard Schneider	BSN, RN, WOCN	PI and Research Study Team Members	X					X
14 Nurse satisfaction with glucose management system	08/08/13	Closed	03/01/14	Sarah Craig	MSN, RN, ACNS	PI and Research Study Team Members	X					X
15 Is a CHG impregnated tegaderm dressing more effective than a CHG impregnated foam pad and dressing combination at improving outcomes?	09/25/13	Open		Mia Campbell	BSN, RN	PI and Research Study Team Members	X					X
16 The efficacy of acupressure wristbands in the prevention of postoperative nausea and vomiting in adult surgical population	11/15/13	Open		Rebecca Gilbert	MSN, RN	PI and Research Study Team Members	X					X

Study Title	Date Approved by IRB (mm/dd/yy)	Study Status	Date Study Completed	Principal Investigator Name(s)	Principal Investigator Credentials	Role(s) of organization's Nurse(s) in the Study	Study Scope Check only one			Study Types Check all that apply		
							Internal to a Single Organization	Multiple Organizations within a System	Independent Organizations Collaboratively	Replication	Qualitative	Quantitative
17 What is the most effective method of wrapping a PIV catheter during patient showers to maintain a dry dressing?	11/22/13	Closed	06/20/14	Beth Quatrara	DNP, RN, CMSRN, ACNS-BC	PI and Research Study Team Members	X					X
18 Does the implementation of an adjunct teaching tool in the form of a CD improve retention and comprehension of the initial trip visit content?	12/13/13	Open		Amy Roman	RN, BSN, CCTC	PI and Research Study Team Members	X					X
19 Prevalence of metabolic acidosis in infants less than 34 weeks gestation receiving pasteurized donor breast milk	03/24/14	Open		Susan Almarode	RN, MSN, NNP	PI and Research Study Team Members	X					X
20 Comparison of two blood glucose finger sticks (standard practice of finger stick vs. alternative site-palm of the hand) for patient comfort (and accuracy when AST compared with standard practice	07/29/14	Open		Clara Winfield	BSN, RN, CAPA	PI and Research Study Team Members	X					X

Study Title	Date Approved by IRB (mm/dd/yy)	Study Status	Date Study Completed	Principal Investigator Name(s)	Principal Investigator Credentials	Role(s) of organization's Nurse(s) in the Study	Study Scope Check only one			Study Types Check all that apply			
							Internal to a Single Organization	Multiple Organizations within a System	Independent Organizations Collaboratively	Replication	Qualitative	Quantitative	
21 Is RN perception of patient satisfaction related to aspects of nursing care congruent with patient perception? A prospective study	1-Jul-14	Open		Cheri Blevins	MSN, RN, CCRN, CCNS	PI and Research Study Team Members	X						X
