

Exhibit OO3.b

Falls Champion

CLABSI Champions

This year revealed what dedication and focused attention can achieve. These unit-based nurse sensitive indicator champions are just a few of the many who devote time, energy and talent resulting in organizational improvement in every category. They engage frontline care delivery staff in quality assurance, quality improvement and peer review of practice, thus leading to better outcomes. Magnet Champions served as a conduit of practice information to and from larger PNSO practice and quality groups.

**Congratulations to these important leaders!**

Pain Champion
